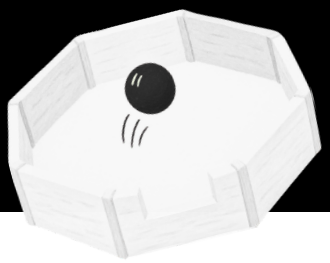
GAGA BALL



Gaga Ball is a fast-paced version of dodgeball played inside an enclosed pit. The aim is to hit other players below the knees with the ball while avoiding being hit yourself.

How to Play

- Everyone starts inside the Gaga Ball pit with one hand touching the wall.
- The ball is thrown into the middle. As it bounces three times, everyone calls out "Ga, Ga, Ball!"
- Once the ball has bounced for the third time, the game is on!
- Use your hands to hit the ball towards other players, aiming below the knees.
- You can dodge, jump and move around to avoid getting hit.
- You can only hit the ball once in a row. It must touch another player or the wall before you can hit it again.

Ways to Get Out

You're out if:

- The ball hits you anywhere below the knees.
- You hit the ball and it goes out of the pit on the full (without bouncing inside the pit first).
- You kick, throw or deliberately pick up and carry the ball.
- You deliberately push or grab another player.

Once you're out, jump out of the pit and cheer on the remaining players!

How to Win

- Keep dodging, ducking and hitting the ball to stay in the game.
- The last player left inside the pit is the winner!
